

Delivering Project Results Workshop

This results-oriented, 6-hour workshop enables project managers to integrate change management into active projects, a practice that is key in delivering enhanced results. Project leaders will leave with an understanding of the importance of change management in meeting project objectives and with a common language for change. This program is available in both in-person and virtual instructor-led formats.

Who Is This Course For?

- Project managers
- Intact project teams
- Project team members

Learning Objectives

During the Delivering Project Results Workshop, participants will:

- Define change management
- Lay the foundation for applying change management on projects to improve outcomes through increased adoption
- Identify impacted employee groups
- Understand how change management drives better adoption and usage
- Build a common language and vision for change management
- Learn how to build support for change management with project teams

Course Materials

Participants will receive a program workbook, placemat and assessments
