

Driving Must-Win Project Results

Prosci's role-based, research-based Onsite Training programs teach individuals at every level of your organization how to play their unique roles during times of change. Designed to accelerate success of change projects and help develop enterprise change capability, these programs fuel your organization's efforts to mature in change readiness over time.

A convenient way to engage and train key stakeholders, Onsite Training:

- **Leverages** results-driven tools, methodologies and best practices research
- **Empowers** diverse roles across your organization with change management skills
- **Increases** change adoption and utilization through employee understanding and engagement
- **Drives** project ROI and greater success on must-win projects
- **Reduces** costs by hosting trainings at your organization's facilities
- **Builds** your enterprise change management capability
- **Grows** a change-ready, change-mature organization that readily adapts to change

Prosci's Onsite Training programs offer an affordable way to bring tailored change management training to your organization. Targeting roles across your enterprise—from front-line associates and project managers to people managers and executives—Onsite Training enhances unique skillsets while growing your organization's overall level of change competency and maturity.

Prosci Onsite Training

Reap immediate returns on your training investment and grow your organizational change maturity by improving the skills of all roles that must manage and adopt change.

Core Training Programs

Change Management Sponsor Briefing

Clarifies executive sponsor roles and connects effective change management to business results

Change Management Certification Program

Enables individuals with the knowledge, skills and tools to apply the Prosci methodology to existing and future change management projects

Change Management Program for Managers

Enables people managers to become effective change leaders for their front-line teams

Delivering Project Results Workshop

Reveals how to integrate project management and change management on active projects, speak a common language around change, and achieve objectives on must-win projects

Change Management Employee Orientation

Addresses employee resistance and provides the context employees need to engage with their managers effectively, so they can adopt organizational changes

Fundamentals of Change Management

Helps stakeholders understand the foundations and benefits of change management—both to themselves and their organization—and builds awareness of and desire for change

Additional Training Programs

Train-the-Trainer Program

Enables qualified change practitioners to deliver change management training to others in your organization, improving change-readiness in the context of your unique environment

Integrating Agile and Change Management Workshop

Demonstrates how to adapt change management for iterative project management approaches to improve adoption and usage

Certification Reinforcement Program

Re-engages and upskills your core group of Prosci Certified Change Practitioners with a deeper understanding of the Prosci methodology

Built for Your Organization

Prosci Onsite Training programs leverage the latest industry research and focus on the specific changes you're experiencing—to set you up for success today and in the future.
