Project Management Challenge: Managing Triple Constraint

- **Scope** – The work that needs to be accomplished to deliver a product, service, or result with the specified features and functions.
- **Schedule** – The time by which the product, service or result needs to be delivered.
- **Cost** – The allocated budget within which to deliver the product, service or result.

Change Management Challenge: The People Side of the Coin

Documented and optimized
a critical process

Announced a new
mindset for growth

Developed a new
enabling technology

People did not follow and
adhere to the process

People did not demonstrate
the necessary behaviors

People did not adopt and
use said technology

Foundational Findings From Change Management Research on the Most Critical Steps to Drive Success

Summary

Greatest contributors to success and greatest change management obstacles provide a research foundation for your change management work. These core best practices continue to shape the practice and growth of the change management industry. Longitudinal data reveals how key findings have changed over time. Search for advice and lessons learned from seasoned change leaders.

Highlights

For the research conducted, study, active and visible executive sponsorship was identified as the greatest overall contributor to change success.

Greatest Contributors to Success

1Active and visible executive sponsorship

2Structured change management approach

3Frequent and open communication

4Employee engagement and participation

5Dedicated change management resources

6Integration and engagement with project management

7Engagement with middle managers

Sponsor Engagement Techniques

- 1 Define the role and ask for support.**
 - Explain what you need and make an appeal for support.
- 2 Lean on the people-dependent ROI to engage them.**
 - Remind the sponsor how much the project's success depends on individual behavioral change.
- 3 Make it easy on your sponsor.**
 - Do the heavy lifting – craft emails, set calendar reminders, provide talking points.
- 4 Reinforce the role.**
 - Remind your sponsor of the value they are adding.

23

Frequent and Open Communication Practices

- 1 Explain the case for change.**
 - Why this change, why now, what's the risk of not changing, what's in it for me/us?
- 2 Remember the Rule of 7.**
 - Individuals need to hear messages as often as seven times in order for them to fully absorb the information.
- 3 Communicate using different communication channels.**
 - If you're going to communicate seven times, don't forget to add some variety.
- 4 Test your hypotheses about where people are and what they know.**
 - You're close to the project and may overestimate how far along others are in their understanding of the work.

	 Schedule	 Cost	 Scope
 Sponsorship			
 Communication	Communicate the “why” for any delays openly and in alignment with the overall project outcome	Identify the preferred sender for to communicate about cost – are people waiting for functionality (that will be delayed) that will change their roles?	Communicate how the project is being done to build confidence in the approach (how are requirements gathered? How is design validated? Who does UAT?)

Middle Manager Engagement Best Practices

- 1 Keep things simple.**
 - Eliminate jargon and technical speak.
- 2 Don't reuse deliverables that are not the right fit.**
 - A status update is not a comms plan!
- 3 Do the heavy lifting – provide scripts, slides, and talking points.**
 - Some managers may even appreciate you offering to drop into a meeting and take the lead driving the conversation.
- 4 Plan to build managers' confidence.**
 - Managers who have the right tools to drive change are more likely to be effective.

Project and Change Management Integration Best Practices

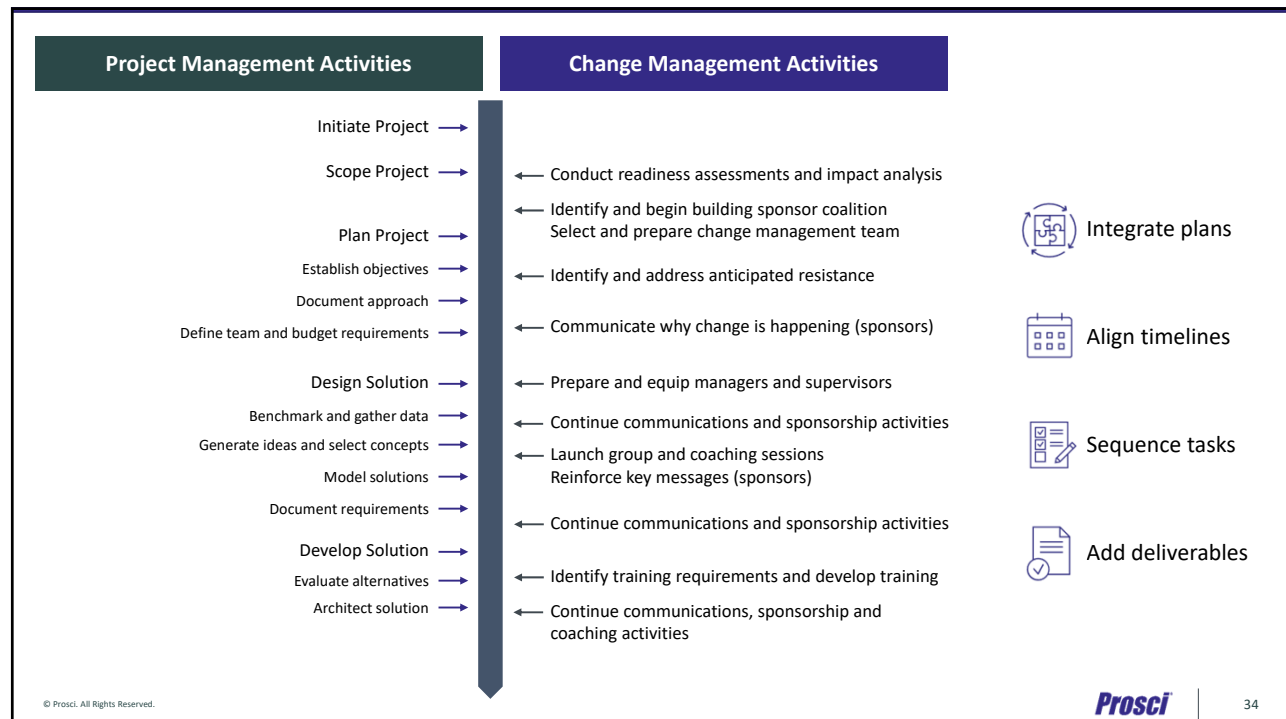

- 1 **Leverage the team structure to ensure PM/CM integration**
 - You may not get to choose who or how CM is being done – but you can make the best of the situation
- 2 **Use CM tools to drive the conversation about project status and health**
 - Collecting data as a group and evaluating it together keeps the space safe for raising red flags and for celebrating wins
- 3 **Plan for ADKAR milestones from the onset**
 - Don't let the notion of bringing people along for the change surprise you – plan for their ADKAR journeys and be intentional.
- 4 **A little is better than none!**
 - Even a light CM touch has been shown by research to be 3x more effective in delivering project results.
